JAZZMYN - Before coming to work for 7Company®, a diet was not on my mind. I knew I was heavy, but I have always been heavy. I tried exercise and eating healthier, but it didn't make much of a difference. I tried to embrace my curves, but since starting the diet I am beyond excited about the positive changes. I have lost 14 lbs since starting the Ideal Protein program and 11 inches. I am beginning to feel like my body is going to match my out-going and fun loving personality!
